Job Objective

Seeking a position as a Front End Web Developer.

Education

Coding Dojo

Full Stack Web Development Bootcamp

06/15-08/15

Bellevue, WA

Intense (70 hr/week) program where we developed full stack web applications in LAMP, MEAN and Ruby on Rails. Completed CRUD projects with authentication and encryption resembling a social network style web application. The first hour of every day consisted of solving algorithm challenges (loops, sorts, Linked Lists, Fibonacci sequence, binary search trees and many others).

Cornish College Seattle, WA

Completed one year towards Bachelor of Arts in Jazz Performance. With studying jazz I learned to creatively express myself and live in the moment. Because of the high cost of tuition I decided it was a smarter financial decision to not attend a second year.

09/98-05/99

Bellevue College Bellevue, WA

Associate of Arts and Sciences(A.A.S.), General Studies

09/95-06/98

Professional Experience

Twenty two years experience in the restaurant industry working as a cook, delivery driver, server and bartender.

Pagliacci Pizza Seattle, WA

Delivery Driver

07/13-Present

Projects

Co-developed a Seattle Area [Disc Golf website](#) using Ruby on Rails and Twitter Bootstrap. Application was deployed via SSH onto an Ubuntu server by using the Capistrano gem.

[Personal portfolio](#) website developed with Twitter Bootstrap and jQuery.
