Node.js, Apache

Dev Tools

Terminal, Chrome Dev
Tools, Sublime Text

Methodologies

MVC, OOP, RESTful

Job Objective

Seeking a career as a Front End Web Developer.

Education

Coding Dojo

Full Stack Web Development Bootcamp
06/15-08/15
Bellevue, WA

Intense (70 hr/week) program where we developed full stack web applications in LAMP, MEAN and Ruby on Rails. Completed projects resembling a social network style web application with login/logout, multiple users, posts, comments, likes and a UI connecting to a database. The first hour of every day consisted of solving algorithm challenges (loops, sorts, Linked Lists, Fibonacci sequence, binary search trees and many others).

Cornish College

Completed one year towards Bachelor of Arts in Jazz Performance. With studying jazz I learned to creatively express myself and live in the moment. Because of the high cost of tuition I decided it was a smarter financial decision to not attend a second year.

09/98-05/99
Seattle, WA

Bellevue College

Associate of Arts and Sciences(A.A.S.), General Studies
09/95-06/98
Bellevue, WA

Professional Experience

Twenty two years experience in the restaurant industry working as a cook, delivery driver, server and bartender.

Pagliacci Pizza

Delivery Driver
07/13-Present
Seattle, WA

Projects

Co-developed a Seattle Area [Disc Golf website](#) using Ruby on Rails and Twitter Bootstrap. Application was deployed via SSH onto an Ubuntu server by using the Capistrano gem.
